Every reasonable care has been taken in the preparation of the location map. The map is printed as at October 2019. For information on the permissible land use and density of sites around the housing project, the intending Purchaser may refer to the Master Plan available from the website of the Urban Redevelopment Authority at [www.ura.gov.sg](http://www.ura.gov.sg).

# EXPLORE AN EVOLVING DISTRICT THAT FITS YOUR LIFESTYLE

The privilege of proximity is yours. Renowned schools like Nan Chiau Primary School and CHIJ St. Joseph’s Convent are just nearby and you are also close to the working hubs of Seletar Aerospace Park. Whet your appetite with exciting F&B outlets like Wheeler’s Estate and The Summerhouse, and explore lifestyle destinations like IKEA Tampines and Jewel Changi Airport, all easily reachable. For escapes into nature, the adjacent Compassvale Ancilla Park is right around the corner.

There is more on the horizon, in line with the URA North-East Region Draft Master Plan 2019. Upcoming developments include the Punggol Digital District, Lorong Halus Industrial Estate and the Singapore Institute of Technology, all of which will open a world of possibilities and job opportunities. Discover something new every day at the Punggol Promenade, a rejuvenating region home to shops and F&B hubs like The Punggol Settlement.

With the upcoming Thomson-East Coast Line (TEL) and Cross Island Line (CRL) completed, your home will be bridged to more transport hubs all around the city, while the emergence of the Round Island Route grants convenient access to the Park Connector Network for an abundance of outdoor activities like cycling and hiking.

# THE GOOD LIFE BECKONS WITH A MYRIAD OF THEMED LIFESTYLE CLUBS

Welcome to a collection of delightful clubs at Sengkang Grand Residences. There are five themed clubs to explore, each with its own immersive facilities to choose from for hours of fun and excitement.

Come together at the Recreation Club, where you can dine under the stars at the Gourmet or Poolside BBQ Pavilion, and partake in community gardening at the Teepee Gardening area. Then, entertain the little ones at the Adventure Club, which features the Trampoline Thrill, the Tower Tree Slide and the Playhouse on Lawn.

Have furry friends? Keep them active too at the entertaining Pets’ Play.

An adrenaline rush awaits at the Fitness Club, where you can plunge into the 50m Lap Pool and tone up at the Gymnasium overlooking the pool. Rejuvenate the mind and soul at the Wellness Club with its relaxing Aqua Hammock and colour-changing Spectrum Spa Pool. At the Sensory Club, take a stroll by the scenic TreeTop Walk or the Five Senses Garden.

There are also two Clubhouses with function rooms, perfect for all kinds of social gatherings.

## SPLENDOUR ILLUMINATES EVERY SPACE

With 680 units spread across nine residential towers, ranging from 1-bedroom + study to 4-bedroom premium + flexi units, every home is optimally designed for you and your family. Each unit is decorated impeccably in a clean palette of pleasant tones and natural textures. Shape your home however you fancy, with expansive and adaptable living spaces that invite you to be creative with your interior design aspirations.

## LUXURY IS IN THE DETAIL

Cook up home-made feasts in your fully-equipped kitchen with appliances from De Dietrich such as a cooker hob, hood, oven and refrigerator. A two-in-one washer and dryer, also from De Dietrich, wrings out the hassle in doing laundry. Freshen up as you wind down in the bathroom furnished with branded fittings and wares from Hansgrohe and Duravit.

# AN ECO-CONSCIOUS ARRAY OF GREEN FEATURES

Live your best life while minimising your impact on the environment. These green features will ensure you reduce your carbon footprint without reducing your comfort.

## ENERGY-EFFICIENT DESIGN

- Buildings’ orientation provided for good natural ventilation in the common areas and residential units.
- Building façade designed with good performance glazing to reduce solar heat gain. Balconies provide the residential units with deep recesses, providing shade.

## ENVIRONMENTAL QUALITY AND PROTECTION

- Extensive use of environmentally friendly and sustainable materials certified by Singapore Green Labelling Scheme.
- Achieved Green Mark Gold<sup>Plus</sup> award.
- Low volatile organic compounds paints for all internal walls to ensure healthy indoor air quality.

## ENERGY-EFFICIENT FEATURES

- Energy-efficient air-conditioning system for all residential units.
- Efficient lighting design by use of LED and provision of motion sensors in common areas.
- Energy-efficient lifts with regenerative drive, VVVF (variable voltage variable frequency) drive and sleep function mode.

## WATER-EFFICIENT FEATURES

- Water-efficient sanitary fittings in all residential units.
- Use of water-efficient auto-irrigation system for major landscape areas.

## OTHER GREEN INITIATIVES

- Provision of bicycle parking lots to promote green transport and healthy lifestyle.
- Provision of Green Highline, connecting the residential blocks to Compassvale Ancilla Park.
- Provision of End-of-Trip facilities, providing cyclists with facilities that will encourage green transport usage.
- Siphonic rainwater discharge system on the roof.

2. Isolator/connection unit shall be provided according to the no. of heaters for each apartment.

A. **Marble/Compressed Marble/Limestone/Granite (where applicable)**

Marble/compressed marble/limestone/granite are natural stone materials containing veins with tonality differences. There will be colour and markings caused by their complex mineral composition and incorporated impurities. While such materials can be pre-selected before installation, this non-conformity in the marble/compressed marble/limestone/granite as well as non-uniformity between pieces cannot be totally avoided. Granite tiles are pre-polished before laying and care has been taken for their installation. However, granite, being a much harder material than marble, cannot be re-polished after installation. Hence, some differences may be felt at the joints. Subject to clause 14.3 of sale and purchase agreement, the tonality and pattern of the marble, limestone or granite selected and installed shall be subject to availability.

B. **Timber Strips (where applicable)**

Timber strips are natural materials containing veins and tonal differences. Thus, it is not possible to achieve total consistency of colour and grain in their selection and installation. Timber strips are also subject to thermal expansion and contraction beyond the control of the builder and the Vendor. Natural timber that is used outdoors will become bleached due to sunlight and rain. Thus, the cycle of maintenance on staining will need to be increased as required. Notwithstanding this note, the Vendor shall remain fully responsible for the performance of its obligations under clauses 9 and 17 of sale and purchase agreement.

C. **Air-conditioning system**

To ensure good working condition of the air-conditioning system, the system has to be maintained and cleaned on a regular basis by the Purchaser. This includes the cleaning of filters, clearing of condensate pipes and charging of gas. The Purchaser is advised to engage his own contractor to service the air-conditioning system regularly.

D. **Television and/or Internet Access**

The Purchaser is liable to pay annual fee, subscription fee and such other fees to the television and/or internet service providers or any other relevant party or any relevant authorities. The Vendor is not responsible to make arrangements with any of the said parties for the service connection for their respective channels and/or internet access.

E. **Materials, Fittings, Equipment, Finishes, Installations and Appliances**

Subject to clause 14.3 of sale and purchase agreement, the brand, colour and model as specified for all materials, fittings, equipment, finishes, installations and appliances to be supplied shall be provided subject to the Architect's selection and market availability.

F. **Warranties**

Where warranties are given by the manufacturers and/or contractors and/or suppliers of any of the equipment and/or appliances installed by the Vendor at the Unit, the Vendor will assign to the Purchaser such warranties at the time when vacant possession of the Unit is delivered to the Purchaser. Notwithstanding this assignment, the Vendor shall remain fully responsible for the performance of its obligations under clauses 9 and 17 of sale and purchase agreement.

G. **Web Portal of the Housing Project**

The Purchaser will have to pay annual fee, subscription fee or any such fee to the service provider of the Web Portal of the Housing Project as may be appointed by the Vendor or the Management Corporation when it is formed.

H. **False Ceiling**

The false ceiling space provision allows for the optimal function and installation of M&E services. Access panels are allocated for ease of maintenance access to concealed M&E equipment for regular cleaning purposes. Where removal of equipment is needed, ceiling works will be required. Location of false ceiling is subject to the Architect's sole discretion and final design.

I. **Glass**

Glass is manufactured material that is not 100% pure. Invisible nickel sulphide impurities may cause spontaneous glass breakage, which may occur in all glass by all manufacturers. The Purchaser is recommended to take up home insurance covering glass breakage to cover this possible event. Notwithstanding this note, the Vendor shall remain fully responsible for the performance of its obligations under clauses 9 and 17 of sale and purchase agreement.

J. **Mechanical Ventilation System**

Mechanical ventilation fans and ductings are provided to toilets which are not naturally ventilated. To ensure good working condition of the mechanical ventilation system, the mechanical ventilation system for the exhaust system within internal Bathrooms and/or WCs (where applicable) is to be maintained by the Purchaser on a regular basis.

K. **Wall**

All wall finishes shall be terminated at false ceiling level. There will be no tiles/stone works behind kitchen cabinets/vanity cabinet/mirror.

L. **Layout/Location of Fan Coil Units, Electrical Points, Television Points, Telecommunication Points, Door Swing Positions and Plaster Ceiling Boards**

Layout/Location of fan coil units, electrical points, television points, telecommunication points, door swing positions, sliding door positions and plaster ceiling boards are subject to the Architect's final decision and design.

M. **Tiles**

Selected tile sizes and tile surface flatness cannot be perfect and are subject to acceptable range described in Singapore Standards SS483:2000.

N. **Vinyl Flooring**

Vinyl Flooring is a manufactured material which contains tonality differences to match natural wood finish. Thus, it is not possible to achieve total consistency of colour and grain in its selection and installation. Vinyl floors are installed in modular planks and are subject to thermal expansion and contraction beyond the control of the Builder and Vendor. Notwithstanding this note, the Vendor shall remain fully responsible for the performance of its obligations under clauses 9 and 17 of sale and purchase agreement.

O. **Mobile Phone Reception**

Telephone reception on mobile phones within the Housing Project is subject to availability/provision of satellite/wireless coverage by the respective mobile telephone network service providers and is not within the purview/control of the Vendor.

P. **Digital TV Service / Reception**

Digital TV Service is provided with necessary cabling or connections from its network to the Building. The purchaser will have to ensure that their televisions are digital ready and compatible in order to view the Free-to-Air (FTA) channels.

The availability/provision of reception coverage by the respective media network service providers is not within the purview/control of the Vendor.

Q. **Prefabricated Pre-finished Volumetric Construction (PPVC)**

Certain unit and/or area may be of prefabricated structurally reinforced concrete volumetric module with complete and/or pre-finished and/or pre-installed concealed electrical services and/or plumbing services and/or air-conditioning and mechanical ventilation ("ACMV") services and/or sanitary services construction. All walls, penetration openings, electrical services, plumbing services, ACMV services and sanitary services are predesigned and/or concealed and/or pre-route prior to installation on site. No hacking of any of the structural walls of the Unit is allowed.

R. **Prefabricated Bathroom Unit**

Certain Bathrooms and WC may be prefabricated construction and all penetrations are sealed at manufacturer's factory prior to installation on site. Any subsequent penetrations are not recommended as they will compromise the waterproofing warranty. Any hacking, repairing and drilling within bathroom must be in accordance to the manufacturer's manual book.

S. **Home Fire Alarm Device (HFAD)**

Home Fire Alarm Device is provided to each residential unit as per compliance to the local authority requirement. To ensure good working condition, the HFAD has to be maintained by the Purchaser.
